

Bir doğal sayının üzerine hep aynı sayıyı ekleyerek ya da eksilttik yaparak yapılan sayma işlemine **ritmik sayma** denir.

1. Çiçeklerde belirtilen sayılardan başlayarak istenilen ritmik saymaları yapalım.

2. Aşağıda verilen ritmik saymaları örnekteki gibi devam ettirelim.

$$893 \rightarrow 894 \rightarrow 895 \rightarrow 896$$

$$610 \rightarrow 620 \rightarrow \dots \rightarrow \dots$$

$$205 \rightarrow 305 \rightarrow \dots \rightarrow \dots$$

$$100 \rightarrow 200 \rightarrow \dots \rightarrow \dots$$

$$145 \rightarrow 155 \rightarrow \dots \rightarrow \dots$$

$$568 \rightarrow 569 \rightarrow \dots \rightarrow \dots$$

$$385 \rightarrow 395 \rightarrow \dots \rightarrow \dots$$

$$142 \rightarrow 143 \rightarrow \dots \rightarrow \dots$$

$$174 \rightarrow 184 \rightarrow \dots \rightarrow \dots$$

$$301 \rightarrow 401 \rightarrow \dots \rightarrow \dots$$

$$665 \rightarrow 666 \rightarrow \dots \rightarrow \dots$$

$$189 \rightarrow 199 \rightarrow \dots \rightarrow \dots$$

$$210 \rightarrow 310 \rightarrow \dots \rightarrow \dots$$
